He was arrested in September, 1886, as he was leaving the ferry-boat at Barclay street, New York, with a basket on his arm containing \$200 m counterfeit silver dollars. He was convicted and sentenced to four years in same prison.

The contract for rebuilding the tower of the public building at Wichita, Kans., has been awarded to V. Jobst, of Wichita, at his bid of \$5.402. Bids were opened at the Treasury department yesterday for the construction of a quarantine station in Sapelo sound, Ga., the lowest bid being that of McCarthy & Baldwin, of this city, at \$14,646. The West Point manufacturing company was the lowest bidder for furnishing two boilers for the Treasury department building.

Gave Bail to Appear in Texas. Yesterday Deputy Marsha! Van Ripen arrived here with the papers for the arrest of Wm. Samuel Parker, late a sergeant in troop B, third U. S. cavalry, on the charge of seduction, and presented them to the marshal. Mr. Springman, of the marshal's office, was detailed to make the arrest. After searching for a clue he finally thought that Parker might have applied for appointment on the police force, and finding that his surmise was correct. he soon obtained from his papers information as to his whereabouts. Last night Parker was found in the western part of the city. He is a good-looking young man about twenty-two years of age and nearly if not quite six feet in height. He was locked up at the first precinct station and this morning taken before U. S. Commissioner Bundy, when Mr. C. Carrington appeared for him and he gave bail in \$2,000 to appear in Texas on the first Monday in November next. The Motive He Had for Desiring Dr. Cronin's Removal. NVESTIGATION MADE BY THE GRAND JURY OF HIS ACCOUNTS-INTERESTING HISTORY OF MICHAEL BOLAND'S CAREER-BURKE'S TRIAL

IN WINNIPEG, AND HIS PROBABLE EXTRADITION. CHICAGO, June 21 .- Another loss of \$18,000 sustained by Alexander Sullivan through his speculations was discovered by the grand jury vesterday. It was also ascertained that Martin Burke secreted himself at Joliet from May 9 to May 18, and that while he was there he received

intimate friends where he was going. These facts about Sullivan and Burke were the most valuable and startling, as they were about the only new ones resulting from the investigation yesterday. Alexander Sullivan speculated at one time through the firm of Maurice Rosenfeld & Co. Some of his plunges were known to have been remarkably lucky, and he made money in large sums. His losses were smaller than his gains, but there were Italian counterfeiter, arrested in New York city | more of them. The aggregate of his winnings and that of his losses were carefully calculated, and it was discovered that, although he made several lucky strikes, he really lost \$18,000 while operating through this firm.

LE CARON DISMISSED FROM THE G. A. R. Le Caron, the British military spy, was last night tried by his comrades in Winfield Hancock post, No. 560, G. A. R., and summarily dismissed from the order. The charges against him were that he was unworthy of being a comrade of the other members, and the trial nearly every instance received counterfeit coin was brought about by his testimony given in the Parnell case. Added to this is a story BALTIMORE AND OHIO RATES.—Chairman stand was searched a great deal of the counter- peculiar interest as to his identification by the members of the post, and which points to the fact that Le Caron not only spent his time in America in acting as a spy against the Irish revolutionists, but also joined the United States army and the G. A. R., for the purpose of giving information to the British government. An investigation of LeCaron's papers, on which he got into the post, was made. It was found that he was a private in the Sixteenth Pennsylvania infantry during the war, and rose to the rank of lieutenant in a colored infantry regiment. His history in Braidwood, Ill., where he kept a drug store, was looked into. It was found that he simply acted as a spy on the actions of the miners in that section who were members of the L. R. B.

CRONIN AND COUGHLIN AND MISS MURPHY. In the possession of the state's attorney, among the private papers of Dr. Cronin, is a poem which was mailed to the doctor's office in the Chicago opera-house block a few days after the murder. Chief Hubbard, who seized all the papers in the doctor's office and later turned them over to the state's attorney, says that the poem is a very clever effusion, eulo-gistic in its burden of Dr. Cronin. He is also authority for the statement that the authoress of the poem is Miss Annie Murphy, who claimed to have seen Dr. Cronin on a street car at 9:30 o'clock on the night of May 4. It is stated that Coughlin was introduced to friends of the Murphy's as their "cousin." Coughlin was around Murphy's house a great deal after his immediate arrival in Chicago and was quite attentive to Miss Annie. Dr.

Cronin was also regular in his attentions to the members of the Murphy family. MOTIVE FOR CRONIN'S REMOVAL. The Tribune, this morning, says: In the search for a motive for Dr. Cronin's removal the only intelligible one found is furnished by the history of his persistent efforts to show the misappropriation of Clan-na-Gael funds. The men whose standing in the Irish cause, and whose honor were involved by these efforts. were Alexander Sullivan, Michael Boland and Dennis C. Feeley, the triangle during the early years of the present decade. At least \$350,000, say Cronin's adherents, passed through the hands of the three men while they were in supremacy.

The Tribune then devotes three columns to

an investigation of Michael Boland's record during the past ten or twelve years. It traces him from a position as coal weigher in Louisville to Kansas City, Mo., where he now is police magistrate. From interviews with a number of commission firms in Kansas City, the Tribune concludes that Mr. Boland has speculated heavily, although he was not such a plunger as Sullivan. BOLAND ADMITS HAVING SPECULATED.

In an interview with their representative the Tribune says Mr. Boland admitted the speculation, and conveyed the impression that he would be well off if he had not speculated, and yet he had some property left. In its investi-gation the Tribune refers to Mr. Boland as a fenian captain and a turncoat in politics and religion, and says his record is quite suggestive of the real source of his revenue, and that his services as agent for Sullivan have met with prompt promotion and payment. It concludes as follows:

"It is certainly a fact that from 1878, when he left the office of prosecuting attorney of the city court of Louisville, to 1889, when he be-came the recorder of Kansas City, he was only in name a lawyer. Yet in these ten years he lived well, traveled extensively, handsomely entertained his friends, loaned money and speculated in anything, from a horse race to a share HOW DID HE MANAGE TO DO IT?

He had saved nothing, could have saved nothing, from his former criminal cases in Louisville prior to 1874. He obtained no money from his marriage. He inherited no money. He has never been in business. He admits he has lost at speculation. Will he not make known his valuable receipt to an anxious and admiring public?"

Train Wreckers Arrested. SCRANTON, Pa., June 21. Three Hungarians,

Frank Gorgie, Harry Charsona and Allack Charson, charged with trying to wreck a passenger train on the Delaware Hudson Gravity railroad on the Mosic mountain, were arrested here last night. They lived at number four plane, near Carbondale, and became desperate ecause they could not secure work from the company. By placing the rail close to one of the rails of the tracks and bracing it tightly, they hoped to overturn the train coming from Honesdale to Carbondale. The point selected was the horseshoe curve, which is run along a high embankment. The train, in which there were about 25 passengers, happened to be running slow and passed over the obstruction safely.

In the first report it was said that young Snyder had been shot as well as stabbed. JOHNSTOWN, Pa., June 21.—The weather here is remarkably fair and pleasant to-day, and work on the wreckage has been generally resumed. About 2,000 men are at work of the McKnight-Flynn crowd, and about 500 who have been discharged are walking about the place seeking work from some of the contractors. The authorities have refused to furnish transportation to the strikers who desire leaving here, and consequently but few will leave.

St. Paul, Minn., June 21.-District-Attorney Baxter last night said that he had received a telegram from Judge T. M. Cooley, of the interstate commerce commission, directing him to have the Sault Ste Marie road indicted for breaking the law in a specific case, which was that a quantity of alcohol had been carried from some point on the Kansas City road to New York for 47\(\frac{1}{2}\) cents per 100. This is an infraction of the law in that it is less than the published rate. Mr. Baxter sent a reply by telegram to the effect that he believed it would not be possible to secure an indictment without a more definite charge, and asked for the name of the point on the Kansas City road and

Much Freedom for Socialists. BEENE, June 21.-The bundesrath, in reply to inquiries made by the nationalrath, denies that there are any grounds for the complaints made by foreign powers that socialists are allowed too much freedom in Switzerland. It declares that Switzerland will always fulfil her international obligations, but holds that the duty to watch the intrigues of revolutionists does not devolve upon Switzerland exclusively on account of her neutrality, but is incumbent upon every state. It says the negotiations between Switzerland and the powers will continue, and ends by giving assurance that the bundesrath will properly safeguard the dignity and interests of the country and will
